

SHELM

All-position radial designed for exceptional wear and traction in mixed on/off road applications.

ON/OFF ROAD APPLICATION

All-position radial designed for exceptional wear and traction in mixed on/ off road applications.

Excellent Traction –

- Optimized traction for soft soil and mud
- Massive open lateral shoulder grooves
- Non-directional tread design

Exceptional Durabilty –

- Protection against aggression, chipping and scaling
- Application specific compounds
- Extra robust 4-steel belt construction Beefy sidewalls with shoulder scallops
- Groove bottom protectors -Protection from stone drilling

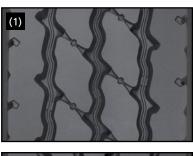

Extended Casing Life –

Longer life and retreadability Full-width elastic protector ply- helps protect the working plies from bruising and penetrations, minimizing downtime.

 Rectangular bead bundle

 a Michelin[®] exclusive -simulates a solid steel rod

 "strapping" the tire onto the wheel. This design stabilizes the entire bead region and minimizes fatigue in order to extend casing life.

Tread design may vary depending on size.

Note: Wheel listed first is the measuring wheel.

(1, 2) Tread design as indicated on the tire pictures shown above.
(3) For use with 8.25 x 22.5 wheels, consult Michelin.

(*) Exceeding the lawful speed limit is neither recommended nor endorsed.

(4) Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. MICHELIN® tires and tubes are subject to a continuous development program. Michelin North America, Inc. reserves the right to change product specifications at any time without notice or obligations. Please consult wheel manufacturer's load and inflation limits. Never exceed wheel manufacturer's limits without permission of component manufacturer.
